Step-by-Step Knitting Guide

Let's embark on the knitting journey together! Follow these step-by-step instructions and refer to the accompanying images and videos for visual support:

Step 1: Casting On

- Create a slip knot and place it on your left-hand needle.

- Insert your right-hand needle into the loop from front to back.
- Hook the yarn from the back and pull it through the loop.
- Slip the new loop onto your left-hand needle.

Slip Casting Process-1a

A Separate Casting

A separate casting is made of a clay tube that will be attached to the interior of the basin immediately after the basin is drained.

Installing Clay Tube

The joining of the clay tube to the basin is most successfully achieved when done immediately after the Basin is drained.

The tube is designed to allow the electrical cord for the fountain pump to exit the basin above the fountain's water level.

Therefore no modification to the fountain pump is needed.

Step 2: Knit Stitch

- Insert your right-hand needle into the next stitch on your left-hand needle, from back to front.
- Hook the yarn from the back and pull it through the stitch.
- Slip the new loop onto your left-hand needle and drop the old loop off the right-hand needle.

Step 3: Purl Stitch

- Insert your right-hand needle into the next stitch on your left-hand needle, from front to back.

- Hook the yarn from the front and pull it through the stitch.
- Slip the new loop onto your left-hand needle and drop the old loop off the right-hand needle.

Step 4: Shaping the Blanket

Once you have mastered the basic stitches, you will learn how to shape the blanket according to the SSK Little Cutie Knitting Pattern. This involves increasing and decreasing stitches to create the desired size and form.

Step 5: Finishing Touches

The final step is to add the finishing touches to your baby blanket, such as a border or tassels. These details will enhance the overall look and durability of your creation.
